

Abingdon Works Centre Chairman's Run to the Buckinghamshire Railway Centre September 30th 2007

Join us as we visit one of the largest private railway collections in the country with many steam locomotives. These range from express passenger types to the humble shunting engine. There is also an impressive collection of numerous interesting items of rolling stock. Enjoy a steam train ride or simply wander around the 30 acre site and allow your mind to wander back in time to an age when life moved at a slower pace! The Centre is at Quainton, just off the A41, near Waddesdon.

Pre-booking required and numbers will be limited

Road Run from Abingdon

Cost is £7.50 per person.
